

# Kids 4 Research Mouse

Follow the instructions below to create a mouse to sit on your computer monitor. Then, whenever you need information on the benefits of biomedical research using animals, simply visit the Kids 4 Research website address displayed on its sides.

## Thanks to biomedical research using animals...

- ▶ 30,000 children, diagnosed this year with cystic fibrosis, have a greatly increased chance of leading full and healthy lives;
- ▶ thousands of pet cats and dogs are vaccinated each year and are thus spared from diseases such as feline leukemia, distemper, parvo, and rabies;
- ▶ children with sickle cell disease have a greater chance of living longer lives, pain-free;
- ▶ 12,000,000 Americans, age six and over, are able to keep their high blood pressure under control with medication; and
- ▶ researchers continue to make medical discoveries that will improve the lives of both animals and humans.
